Instructions

Working the design: Begin by working the backstitch edging around the entire design, using 2 strands of deep pink DMC150. This will give you a border to work within and help place the foxgloves centrally.

Do not fringe the edges until you have finished all stitching.

Cross-stitch using 2 strands and backstitch using 1strand. Finish all cross stitching first, then outline the bells of the flowers in dark green DMC3346 as marked. The rest of the flowers outline with deep pink DMC150.
